Technical data

Ascensore per auto Car lift

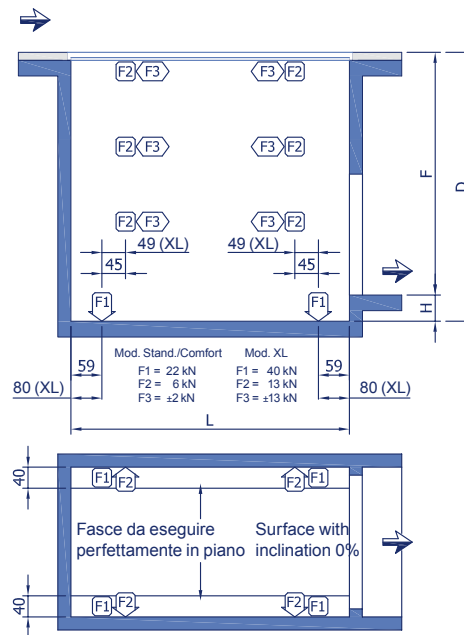

Pulsantiera a bordo On board control panel

Caratteristiche tecniche Technical features

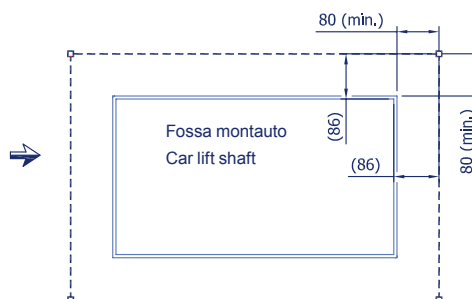

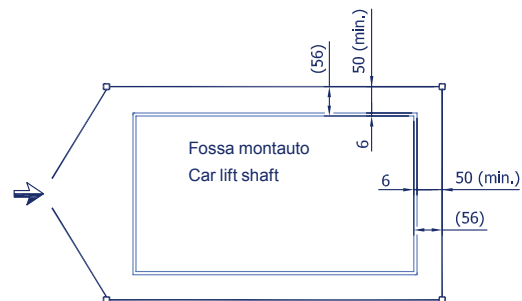

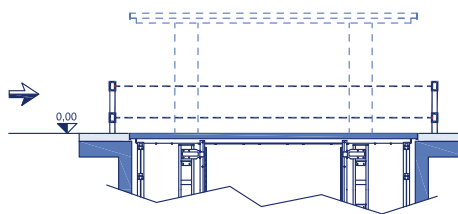

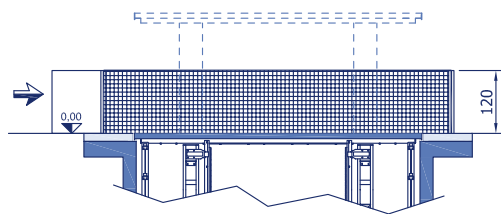

Portata Load (kg)	2700 (XL = 3500)
Potenza motore Motor power (kW)	5,5 (XL = 9,2)
Velocità salita (m/s) Raising speed (m/s)	0,05
Tetto attraversabile da un max peso di (kg) Roof is crossable by a max weight of (kg)	2700 (XL = 3500)
Peso max pavimentazione sul tetto (kg/m2) Max load of the roof paving (kg/m2)	150

Carichi standard Standard stress loads

Descrizione Description	Dimensione Dimension	Standard	Comfort	XL
Larghezza pianale Platform width	A	250	270	300
Lunghezza pianale Platform length	C	520	560	650
Lunghezza auto Car length	E	512	552	642
Larghezza fossa Pit width	B	285	305	335
Lunghezza fossa Pit length	L	528	568	658
Altezza fossa Pit height	H ⁺⁴ ₀	50	50	60
Altezza totale Total height	D ⁺⁵	(F + H)	(F + H)	(F + H)
Corsa Travel	F ⁺⁵	300	1190 (Max)	1190 (Max)
Sporgenza tetto Cover ledge	G	232	232	240
Altezza utile Clearance	I	210	210	210
Altezza protezione* Protection height*	-	210	210	210

Varianti protezioni piano terra Ground floor protections options

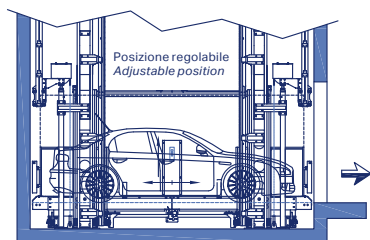

Cancello automatico
Automatic gate

Protezione perimetrale
Perimeter protection

Fotocellule
Photoelectric cells
